zip. How to Install Lava Z92 Stock Firmware? In order to flash stock ROM on your phone, you need to download Lava Z92 Flash File for Lava Z92. Once it's downloaded, make sure you remove all previous data from your phone. Then connect your phone to your computer using a USB cable. Now locate the Flash file on your computer and transfer it to the SD card of your phone. Then boot your phone into recovery mode and select Flash Stock Rom option. How to Uninstall Lava Z92 Stock Firmware? It is always better to uninstall a custom ROM before you install a new one. So, make sure your phone is rooted before proceeding with the steps below. Now make sure you know which firmware you have and if you don't know then you should download the appropriate file. Once you have done that, you will need to install a file extracting tool on your computer. This can be achieved by downloading a free tool like Recofree. Next, follow the steps below to unlock your phone. Then use this tool to locate and extract your firmware and then flash it. Unlock Lava Z92 Stock Firmware: Download Magisk. Unzip the file and extract the magisk_*.zip file. Once unzipped, you will find that Magisk folder. Once in the Magisk folder, rename the file to magisk.zip. Backup the Stock Firmware Now locate your Stock firmware (Downloaded from download page above) and extract it to any folder of your choice. Launch Fastboot Now open a Command Prompt by searching for the 'Command Prompt' icon in the Start menu. Once Command Prompt has opened, type in fastboot.exe and press Enter to open fastboot. Now type in the following command. fastboot flash recovery recovery-backup.img Follow all the steps carefully. You will be successfully rooted your device after flashing the stock firmware. That's it. Now the tutorial is complete. About Lava Z92 Lava Z92 is a Xiaomi phone that was officially launched in India. Lava Z92 was officially announced on 3 June 2019.
